LIFETIME LIMITED STRUCTURAL WARRANTY

The floor plank or tile is warranted to be 100% waterproof and the structural integrity of the floor plank or tile will not be significantly diminished by exposure to water for the life of the product. While moisture will not affect the floor's integrity, it is probable that, when excessive moisture accumulates in buildings or on building materials, mold (and/or) mildew growth can occur (particularly if the moisture problem remains undiscovered or unaddressed). Manufacturer moisture warranty excludes damage resulting from mold and/or mildew growth due to prolonged exposure to moisture. In addition, such excessive moisture levels can cause the ends and/or sides of the product to lift/flare due to the vapor pressure from underneath. Such damage from excessive moisture levels (as outlined in the installation instructions document) are not covered by this warranty. All sources of subfloor moisture should be remedied prior to installation. This warranty is not transferable by the purchaser of the floor.

Open joints of 0.01 inches (0.2 mm) or less are not considered a defect under the joint integrity warranty. Joints compromised by improper installation, lack of continuous climate control or obstructions creating pinch points are specifically excluded by this warranty.

This Lifetime Limited Structural Warranty excludes all casualty events involving water coming in contact with your floor and failures normally covered by homeowners insurance including, but not limited to, damages caused by flooding or standing water from leaky pipes, faucets, or household appliances. Also excluded are damages caused by flooding or standing water from vapor pressure or other casualty events. Any damage to the subfloor and/or surrounding structure that is caused by standing water or flooding is not covered by this warranty.

When a defective product is installed, credit applies to material only and does not include labor since it is the responsibility of the installer to determine suitability of material prior to installation.

WARRANTY

This Lifetime Limited Structural Warranty does not cover:

- Damage to surrounding structure, walls, subfloor, fixtures, furniture, underlayment, moldings, trims, subfloor heating elements, or anything that is not the floor plank or tile.
- Damage resulting from mold & mildew growth due to prolonged exposure to moisture.
- Flooring that is installed outdoors.

WHAT IS NOT COVERED BY THIS LIMITED WARRANTY?

- Damage caused by fire, flooding, exposure to standing water or intentional abuse.
- Damage caused by moisture to surrounding structure, walls, subfloor, fixtures, furniture, underlayment, moldings, trims, subfloor heating elements, or anything that is not the structural integrity or dimensional stability of the floor plank or tile.
- Flooring that is installed outdoors.
- Damage caused by vacuum cleaner beater bar, rolling caster wheels, and cutting from sharp objects. When vacuuming, we recommend using the wand attachment on your vacuum.
- Indentation or damage from improper loading including high heels, spiked shoes, rolling loads, chairs or other furniture not using floor protectors
- Damage caused by abuse such as moving appliances across the floor without adequate protection. When moving appliances or heavy furniture, lay a plywood panel on your floor and “walk” the item across it. This protects your floor from scuffing and tears.
- Loss of gloss/scratching.
- Minor color, shade or texture variations between samples or printed color photography and the actual material.
- Floors that are graded “irregular” or sold “as is” without warranty.
- Floors that are installed in structures other than owner-occupied or tenant-occupied residences. (Except products that are noted as warranted commercial or limited commercial.)
- Discoloration from moisture or underlayment panels after having been repaired or replaced by Manufacturer one time.
- Construction or installation-related damage – including installation defects due to installations not using the recommended Manufacturer products.
- Failure of the floor to adhere to the subfloor due to, for example, moisture, alkaline or vapor pressure from the subfloor.
- Inappropriate end-user activities.
- Damage due to adhesives or tape, scratches, gouges, scuffs, punctures, cuts, indentations, burns, accidents, lack of proper furniture rests, such as chair pads etc., rolling and/or non-foot traffic, or any intentional misuse of the product. Loss of finish gloss over time is consistent with normal wear & tear and is not a product flaw.
- It is normal and expected for there to be color variations due to use of natural components, exposure to UV light and/or sunlight, and age of material. Therefore, color inconsistency between samples, replacement product or illustrations & actual product is not a manufacturing flaw.
- Manufacturer makes no guarantee that Manufacturer products will match or coordinate with customer furnishings, trim, cabinetry, railings, etc.
- Noncompliance with installation instructions and maintenance guidelines as recommended by Manufacturer. Manufacturer cannot assume responsibility for the suitability of flooring material and accompanying products for each individual installation as manufacturer has no control over the installer's proper application. Should an individual piece be doubtful as to appearance or dimension the installer should not use this piece.
- Cracking, warping, soiling, fading, improper maintenance or abuse caused by items such as roller skates, golf shoes or pets, or certain types of wheelchairs and other heavy rolling loads.
- Floor covering installed in inappropriate locations is excluded from this warranty.
- Gloss reduction or surface scratches are not considered surface wear. Dull finish can be corrected with spot or overall recoating care systems.
- Damage to floor caused by flooring that is installed using the floating method that subsequently is heated to temperature above 140° F (60° C) or is exposed to temperatures below 32° F (0° C). This product has an attached underlayment that is not suitable for a direct glue installation. If your site conditions fall outside of the specified temperature range, a dry-back vinyl plank installation is recommended.
- Sounds produced between the subfloor and the moisture barrier are considered a subfloor issue and are not covered under the product warranty.
- Damage that deforms or curls the flooring due to trapped moisture under the flooring. Although this product does not absorb moisture nor degrade the product itself, excessive subfloor moisture can exert pressure to the edges of the flooring and deform the shape of the product.
- Damage from mold, mildew, or other related air quality issues that develop from excessive moisture in the subfloor
- Discoloration from mold or from flooding, leaking plumbing or appliances, water entering through doorways that lead outside
